

Plasma Cutter (CUT40II)

Plasma Cutter CUT40II :

IGBT Inverter technology in a compact, lightweight package, cutting speed is almost twice as fast as oxyfuel cutting and is suitable for cutting stainless steel, copper, carbon steel and aluminium, etc.

Technical Data CUT40II Plasma Cutter	
Description	Data
Input Voltage	220V - 50~60Hz
Input Power	4.8KVA
Output Current Range	10A ~ 40A
Rated Output Voltage	96V
Duty Cycle	60%
Efficiency	85%
Insulation Grade	B
Protection Grade	IP23
Arc Starting	Contact
Max Cutting Thickness	12mm
Weight	7.8KG
Dimensions	376mm x 172mm x 304mm
